

A WATCH NEVER FADES

Time flies, but we inherited wings from our tradition; we consider it our responsibility to nurture this precious heritage in order to pass it on to future generations. Humans have always dreamed of flying, and Emile Chouriet chose to echo this dream with its first timepiece, “Les Ailes du Temps”, placing itself under the patronage of Daedalus. Father of Icarus in ancient Greek mythology, Daedalus represents the archetype of the skillful craftsman and artist who manages to escape imprisonment by manufacturing his own wings. These wings are an allegory of the dream of humanity to transcend its finitude through technology and art and have since become part of the DNA of our brand.

To perpetuate the art of timekeeping and to work for the transmission of skilled craftsmanship have therefore always counted among the most important guiding principles for our work. Firmly anchored in a plurisecular tradition but resolutely oriented towards the future, we are building our own tradition with each new collection, redeploying each time the wings of our DNA into new, contemporary and original designs.

ART PIECES

MINUTE REPEATER  
Ø 46 mm  
Manual movement  
18K gold

TOURBILLON  
Ø 40 mm  
Manual movement  
18K gold

SPORTY COLLECTION

CHALLENGER DEEP  
Ø 42.5 mm  
Automatic movement  
Stainless steel, ceramic

CHALLENGER CLIFF  
Ø 40 mm  
Automatic movement  
Stainless steel

CHALLENGER DEEP  
Ø 42.5 mm  
Automatic movement  
Stainless steel, ceramic

CHALLENGER CLIFF  
Ø 40 mm  
Automatic movement  
Stainless steel

LADIES COLLECTION

LOTUS  
Ø 29.2 mm  
Automatic or Quartz movement  
Stainless steel  
Indexes with diamonds

MAGNOLIA  
Ø 30 mm  
Quartz movement  
Stainless steel

LOTUS  
Ø 29.2 mm  
Automatic movement  
Stainless steel, 18K gold, diamonds

FAIRY FLOWER  
Ø 33 mm  
Quartz movement  
Stainless steel

BUTTERFLY  
Ø 29.2 mm  
Quartz movement  
Stainless steel

ALCHIMIE  
Ø 30 mm  
Automatic movement  
Stainless steel

BALLERINA  
Ø 29 mm  
Quartz movement  
Stainless steel with 18K gold PVD  
Indexes with diamonds

MR. RIGHT  
Ø 30 mm  
Quartz movement  
Stainless steel, 18K gold

LADIES COLLECTION

GENEVA PATRIMONY COLLECTION

LAC LÉMAN | DATE  
Ø 38 or 42 mm  
Automatic movement  
18K gold

DRAGON  
Ø 38 or 42 mm  
Automatic movement  
18K gold  
Indexes with diamonds

LAC LÉMAN | DATE  
Ø 39 mm  
Automatic movement  
Stainless steel, tungsten

HORSE  
Ø 42 mm  
COSC Automatic movement  
18K gold  
Indexes with diamonds

GENEVA PATRIMONY COLLECTION

HÉRITIÉ BLACK  
Ø 40 mm

Stainless steel, tungsten  
Indexes with diamonds

SOLEOS  
Ø 40 mm  
Automatic movement  
Stainless steel

PRINCE  
43.2 x 35 mm  
Automatic movement  
Stainless steel  
Diamonds and sapphires

## HISTORY

Jean Depéry, the founder of the Emile Chouriet manufacture, also had a dream. Descending from a family involved in the watchmaking industry in Geneva since the 17th century, after studies in microengineering and a successful career of his own in the conception and production of watch components, in 1998 he decided to take the next step and create his own timepieces. He named the company after Emile Chouriet, a gifted 17th century watchmaker for whom his own ancestor, François Dagobert Depéry, had produced components. The name is a testimony to Jean Depéry's vision: a tribute to the collaboration between his ancestor and the master watchmaker, it underlines the continued importance of the union of talents and expertise in the field of luxury timekeeping.

## MANUFACTURE

In 2012, as we opened a new factory in Meyrin and reinforced our team of talented craftsmen and professionals, the founder's daughters, Marion and Sophie, both joined the company as marketing manager and as art director respectively, bringing a breath of fresh air. Since then, the wings of our original design have mutated into waves, butterflies, petals of flowers or solar rays, and each new timepiece helps us forge our identity at the same time as it is inspired by it, enriching a catalogue that combines overall coherence and constant innovation.

## NOVELTIES

**CHALLENGER DEEP**  
Ø 42.5 mm  
Automatic movement  
Stainless steel, ceramic

## NOVELTIES

**CHALLENGER CLIFF**  
Ø 40 mm  
Automatic movement  
Stainless steel with black PVD

**CHALLENGER CLIFF**  
Ø 40 mm
